

Allen RS Tera Vang Race Pack

RS Tera Vang Race Pack

Fully spliced and ready to go, the Allen RS Tera racing vang pack comes with everything you need to be racing ready.

The kit is spliced to the perfect lengths, allowing maximum travel for the blocks. The kit gives a 6:1 purchase to ensure ease of use for all sailors. Also featured is our ingenious spliced thimble above the top block to allow for a much easier and accessible downhaul control line (see images for example).

Includes a soft shackle for the base of mast.

Marlow rope and Allen dynamic blocks give maximum friction reduction.
